If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Art Unit: 3687

**Statement establishing unintentional delay**

The response to the above application was mailed by certified mail, the fee of \$65.00 was paid and filed on 02/13/2008 as it is indicated by the mailing and payment documentations enclosed.

Upon conversation with the examiner, it was confirmed as the internal e mails that are enclosed indicates, that a timely filing and response with the proper fee was received by the US Patent office, but for some reason it was not processed.

A copy of the response is enclosed to be processed again.

The applicants petition the US patent office to revive this application. The applicants also petition the US patent office to waive any fees.

The applicants understand that this matter was not intentional by the US patent office or the applicants.

Sincerely,

Albert Kahen

Kamran Arghavanifard.

Hello Viviana,

I received a call from Albert Kahen, one of the applicants to the pro-se application 10/749091, which went abandoned because no reply was received. Mr. Kahen said that he has a receipt of postage that confirms he sent a response in a timely manner, however no response received my docket. I also tried to contact the applicant but no attorney was listed.

Was there a mix-up in the mail center, or is there any information you could give me on the status of this case?

Thanks
